Important Messages

About the Drought -- Because El Niño rains have not put an end to the Drought, the State Water Resources Control Board has extended the mandatory drought restrictions thru October 2016 and the 2-day per week watering schedule is still in effect -- check our website for your assigned watering days. Valencia Water customers have answered the call to reduce their water use and now we ask that you continue those savings wherever and whenever you can. To track your water savings progress, check your online Drought Report on our website at www.valenciawater.com.
